Education

•Master of Science in Artificial Intelligence and Robotics *2021-24*
University of Tehran, Tehran, Iran GPA: 19.12/20

•Bachelor of Science in Computer Engineering *2016-21*
Babol Noshirvani University of Technology, Babol, Iran GPA: 17.38/20

•High School Diploma in Mathematics and Physics *2012-16*
National Organization for Development of Exceptional Talents (Sampad), Babol, Iran GPA: 19.64/20

Experience

•Research Assistance *Aug 2022 - Present*
Convergent Technologies Research Center, University of Tehran, Tehran, Iran Local
– Part of the *Neural Adaptation* Project

•Teaching Assistant, Computational Neuroscience Summer School *July 2023 (3 weeks)*
Neuromatch Acadamay Remote
– Mentored and assisted students in the computational neuroscience course
– Led interactive sessions and discussions to enhance understanding of course material
– Collaborated with fellow TAs and instructors to ensure a valuable learning experience

•Teaching Assistant for Master's Courses *Jan 2023 - July 2023*
University of Tehran, Tehran, Iran Local
– Statistical inference (Spring 2023)
– Introduction to Cognitive Neuroscience (Spring 2023)

•Research Intern *Aug 2022 - Feb 2023*
Genzel lab, Donders institute for brain, cognition and behavior, Nijmegen, Netherlands Remote
– Part of the *Systems Consolidation During Sleep* Project

Selected Academic Projects

•Role of Frontotemporal Circuits in the Representation of Complex Objects
Master's Thesis, University of Tehran, Tehran, Iran Ongoing Project
– Collecting 128-channel EEG Data from 15 subjects
– Preprocessing EEG data with EEGLAB based on Makoto's pipeline
– Applying Multivariate Pattern Analysis (MVPA) method

•Investigating the Robustness and Interpretability of a Deep Learning Model *link*, *link*
Trustworthy AI course, University of Tehran, Tehran, Iran Spring 2023
– Explored model robustness by applying adversary attacks using the Fast Gradient Method
– Employed Deep SHAP and LIME techniques to to investigate model interpretability

•Comparative Study of Image Generation with Stabilized DCGAN and ACGAN *link*
Deep Learning course, University of Tehran, Tehran, Iran Fall 2022
– Implemented DCGAN and ACGAN for image generation based on referenced papers
– Applied Stabilizing techniques

•Comparative Study of Standard ML Algorithms on Music Genre Classification *link*
Machine Learning course, University of Tehran, Tehran, Iran Fall 2021
– Collected music pieces from 5 different Irainian Instruments
– Applied dimensionality reduction techniques
– Applied ML clustering & classification algorithms

•EEG-based Emotion Recognition using Deep Reinforcement Learning *link*
Bachelor's Project, Babol Noshirvani University of Technology, Babol, Iran Summer 2021
– Applied deep reinforcement learning for recognizing emotions based on EEG signals

Honors and Awards

•Top Ranked among Master's Students *2023*
Ranked 3rd in Artificial Intelligence and Robotics Major, University of Tehran, Tehran, Iran

•Awarded a Prestigious Scholarship from the University of Tehran *2021*
Chosen among 24 from 14,000+ participants In the Master's Entrance Exam

•Top Ranked among Bachelor's Students *2020*
Ranked 3rd at Computer Engineering Dept., Babol Noshirvani University of Technology, Babol, Iran

Licenses & Certifications

•Computational Neuroscience Summer School TA
Neuromatch Academy Summer 2023
– Mentored the students during the Tutorials and Project

•Computational Neuroscience Summer School Student
Neuromatch Academy Summer 2022
– Completed the Tutorials and Project

Selected Courses

Graduate	**Undergraduate**
Trustworthy AI: 19.8/20	Signals & Systems: 19.5/20
Neural Networks & Deep Learning: 19.94/20	Graph Theory: 20/20
Machine Learning: 19/20	Introduction to Programming Contests: 20/20
Statistical Inference: 18.7/20	Operating Systems: 20/20
Data Analysis: 20/20	Fundamentals of Compiler Design: 19.1/20
Introduction to Cognitive Neuroscience: 18.45/20	Language Theory & Automata: 18/20

Technical Skills and Interests

Programming Languages:: Python (advanced), MATLAB (proficient), R(proficient), SQL(proficient), Java(familliar)
Development Tools and Frameworks:: Git, EEGLAB, Psychopy, , PyTorch, TensorFlow, Scikitlearn, Matplotlib, etc.
Soft Skills: Problem Solving, Self-learning, Presentation, Adaptability, Thoroughness

Languages

Farsi (Native)
English (Fluent)
– *English proficiency demonstrated through experience as a Teaching Assistant in an international course*
– *Prepared to take the TOEFL exam within two weeks' notice upon request*
